

IMPLANTABLE HEARING TECHNOLOGIES WORKSHOP

NOVEMBER 30, 2017

This workshop is for teachers of the deaf and hard of hearing, auditory verbal therapists, audiologists, speech language pathologists, nurses, social workers and other clinicians involved in the care of children with hearing loss.

Our full day workshop will feature:

- **Dr. Karen Gordon** (Director of Archie's Cochlear Implant Lab at SickKids) providing updates on the latest research on cochlear implants
- **Cleo Audet-Halde** (Clinical Territory Manager of Cochlear Corporation) highlighting the latest technologies for cochlear implants and bone-anchored hearing aids
- **Susan Russell** (Educational Audiologist with York Catholic and Peel District School Boards) sharing experiences using different sound processors and FM systems in schools
- **Dr. Ari Bitnun** (Infectious Diseases Specialist at SickKids) discussing CMV and hearing loss
- **FAQs** with members of the Cochlear Implant and BAHA Programs

**Space is limited
